DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Salomon.

Solomon discloses first and second guides (11, 13) and sensor means including a face engageable by a corner of a mail piece (see Figure 5).

Response to Arguments

3. Applicant's arguments filed 12/5/2001 have been fully considered but they are not persuasive.
4. The applicant states, "The sensor structure of Figure 5 in Salomon, as identified by the examiner, manifestly does not disclose a sensor having a face which is inclined to the mutually perpendicular directions." In response, the examiner notes that, in Figure 5, Salomon discloses a sensor with a projection (19b) having a face which is inclined to the mutually perpendicular directions.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick Mackey whose telephone number is (703) 308-0630.
